

Chair's Report Monday 15 April 2019:

Hello's/Goodbyes:

Good luck conveyed to Jon Adams PDO, who decided not to renew his contract and welcome to new team members Jane Errington - Admin Assistant and Natalie Webster – Project Development Officer.

Best Wishes

BWBP President Lydia Powell has recently had heart surgery and we are grateful to have her among us this evening.

Management Summary Reports

We have Management Summary Reports of the two feasibility studies:

- Food Growing
- Leisure, cultural & fitness opportunities

These are available here and will be published on our website

Exciting News

We have reviewed and revised the Memorandum of Understanding which we are very pleased to note has been signed by PTHB CEO Carol Shillabeer, which we are very grateful to Hayley Thomas and her PA Pam Davies for organising and getting to this point. We have been liaising with Powys County Council who were going to sign the original document and hope they will likewise sign the MOU.

Our board members have attended various meetings and continued to work on our future Strategy Planning and have determined that the Housing and Transport feasibility Studies will be our next workplan.

With our new PDO these will be reviewed and work on the areas the Exec Team here at Bronllys Hospital will be commenced in line with the organisations requirements e.g. the gardens and chapel which will require funding streams that are more readily available to us.

Future Generations Team Video of Methodology

We have been invited to make a research video by the office of the Future Generations Team and have highlighted we would make ourselves available to do so. We await further details and will keep you abreast of the details when we are fully aware ourselves.
